TEST SUMMARY REPORT

General Information			
Test Report Description	This test summary report will provide a summary on all finding based on all report that have been created of ReSMART		
Version Author	Normaliana binti Che Zahari	Contact Number	013-9137233
Associated test plan reference	ReSMART_TP_2.0.0		

Summary

Test Status Report Summary

The status of the test are as follow:

Number of Test Cases Planned to be Completed	Number of Test Cases Remaining to be Executed	Number of Test Cases Completed
51	0	51

Current status of the Test Incident Report are as follow:

New (new incidents introduced in current iteration)	Open (Incidents discovered from previous test iteration that are still pending to be resolved)	Reject (Incidents that were rejected after investigation because it cannot be categorised as incident)	Resolved (Incidents that have been confirmed resolved)	Deferred (Incidents that have been deferred. Incidents are confirmed to be fixed for the next release version)
0	0	0	0	0

Changes from Plans

Number of Test Cases Remaining to be Executed	Number of Test Cases to be Re-executed for Re-test due to Incident raised	Total Number of Test Cases to be Executed and Re-executed
0	0	0

Comprehensiveness assessment

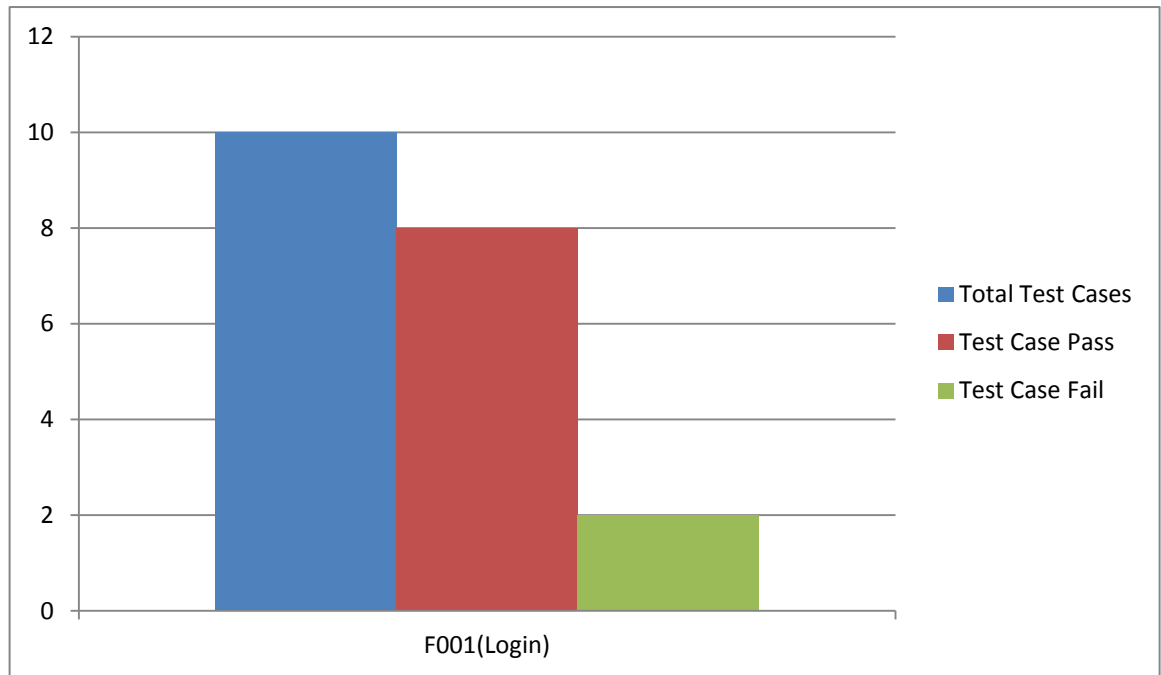

For the time being, there is no incident has been found in requirement specification for operations of ReSMART.

For the test coverage completeness, refer the table below:

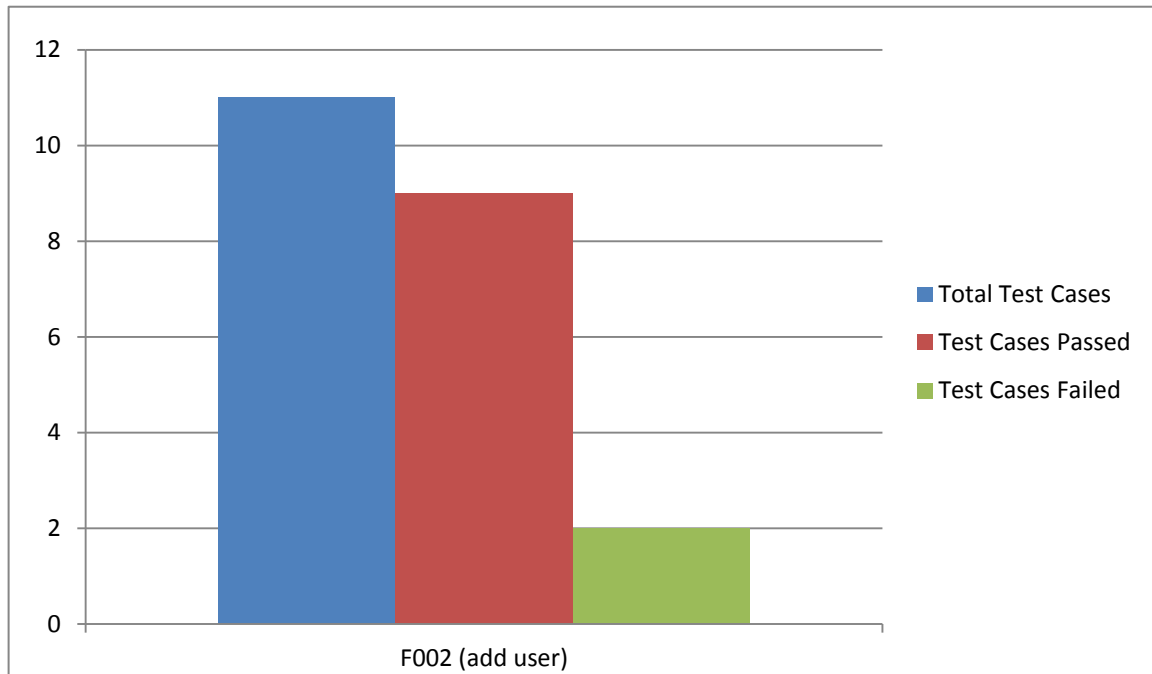

Test document	Completed (%)	Date of completion (%)
Test Case Specification	100	05/12/2015
Test Design Specification	100	05/12/2015
Test Procedure Specification	100	05/12/2015
Test Plan	100	03/12/2015
Test Log	100	14/12/2015
Test Completion Report	100	17/12/2015

Result Summary	
1. The overall quality of requirement specification for operation of ReSMART is considered as good because no incident found in the system.	
Rationale for Decisions	
ReSMART pass all the condition due to nothing bad happened during testing process.	
Conclusion and Recommendation Based on Test Result	
ReSMART have passed the entire test. Other than that, during the testing process of requirement specification, there is no incident occur when using the model. Thus, ReSMART safe and can be release for marketing.
